Elaine,

Understood. Exploring all options to support the travel lift mission during this period. I don't see an issue with incorporating the HAZWHOPER training during this period. Working with the team to determine which 13 will attend.

After our telephone conference, LCDR Yeich raised some concerns with postponing the Travel Lift Training until 12 June 2017 and believes having the training by 1 June 2017 is necessary for maintaining Port Operations in Guantanamo Bay. Please let me know at the earliest if training can be completed by 1 June. If training cannot be accomplished by 1 June, what's Seaward's plan to maintain travel lift capability until training is accomplished.

Additionally, 13 vacancies will be available for HAZWOPER Training scheduled for 31 May - 2 June 2017. Seaward will need to make as many personnel available to attend this training in the event there are cancellations and seats become available. Please let me know how Seaward intends to work this training into the accelerated schedule.
